

NUS Singapore – Amgen Scholars Program 2026

Fully Funded 8-Week Summer Research Internship

Hello 🙋

You commented “Singapore”, so here are the **complete and official details** about the **NUS Amgen Scholars Program 2026**.

This document is designed to give you **clarity**, not confusion.
Please read it fully before applying.

What Is This Program?

The **Amgen Scholars Program** at NUS is a **globally recognised summer research internship** conducted at the **National University of Singapore (NUS)** — one of the **top universities in the world**.

This is:

- Research-focused
- Highly selective
- Fully funded
- Internationally recognised

It is meant for students who want **real lab research exposure**, not classroom learning.

Program Duration & Location

- **Duration:** 8 weeks
- **Dates:** June 2 – August 6, 2026
- **Location:** NUS Campus, Singapore 🇸🇬

You will live and work **inside Singapore** during the program.

What You Will Do During the Internship

You will:

- Work on a real research project
- Be guided by NUS faculty mentors
- Gain hands-on lab or research experience
- Learn research methodology and presentation
- Collaborate with students from multiple countries

This is ideal if you're planning:

- MS
- PhD
- Research-based careers
- Global academic exposure

What “Fully Funded” Means (Very Important)

The program covers **almost everything**.

You will get:

- ✈️ International travel support
- 🏠 Accommodation in Singapore
- 🍽️ Meals
- 📄 Visa fees
- 💰 **SGD 6,000 stipend** for the full program

You do **not** need to spend from your pocket.

Bonus Opportunity (Rare)

At the end of the program:

- Selected scholars will travel to **Kyoto, Japan** 🇯🇵
- To present research at the **Amgen Scholars Asia Symposium**

This trip is:

- Official
 - Fully supported
 - Internationally valuable for your profile
-

Who Can Apply?

You are eligible if you are:

- An **Indian student**
- Pursuing **undergraduate studies** (or early postgraduate)
- From science, life sciences, biotech, bioengineering, or related fields

You DO NOT need:

- IELTS
- TOEFL
- Any application fee

Yes, it is **open for Indian students**.

Application Deadline

 **February 1, 2026**

Late applications are **not accepted**.
Do not wait till the last week.

Official Application Link

Apply **only** through the official NUS page:

👉 <https://amgenscholars.com/university/national-university-of-singapore/>

Bookmark this link and apply carefully.

Documents You'll Usually Need

Prepare these early:

- Academic transcripts
- Statement of Purpose (SOP)
- Recommendation letter(s)
- Resume / CV
- Passport (or proof of application)

👉 A clear SOP matters more than perfect marks.

How Competitive Is This?

Yes, it is competitive.

But remember:

- You lose nothing by applying
- You gain application experience
- You learn how global programs select students

Many students regret **not applying**, not applying and failing.

What You Should Do Next

1. Visit the official website
2. Check eligibility carefully
3. Start SOP preparation early
4. Arrange recommendation letters
5. Apply well before the deadline

Do not rush.

Do not depend blindly on anyone.

Final Note

Opportunities like this don't come often:

- Top university
- Fully funded
- International exposure
- Zero application cost

If you are even **slightly serious** about research or global education, **apply**.

If this document helped you, stay connected.

More **verified global internships and scholarships** are coming to your DM.
